

# Land-use Decision Support: Reducing Risk from Hazards

## Workshop

September 17, 2010  
Simon Fraser University  
Harbour Centre Campus  
8:30 am - 5:00 pm

### IS YOUR LAND-USE PLAN CREATING A DISASTER OR BUILDING RESILIENCE?

#### HELP CREATE A PLANNER'S GUIDEBOOK

*Promote planning for disaster resilience  
Reduce disastrous infrastructure damage*

#### BUILD TOOLS TO CREATE GUIDES

*Build workshop template for your community*

#### BUILD MITIGATION NETWORK

*Focus on mitigation  
Create a legacy  
Share your knowledge and experience*

### WHO SHOULD ATTEND

*Land-use planners, city managers,  
critical-infrastructure owners and  
managers, insurers, researchers  
and practitioners of land-use  
policy, and emergency managers.*

### WORKSHOP DESIGN

*Keynote on land-use decision practices  
Breakout and panel discussions  
to define best practices  
Graphic record of contributions to planner's guide*

### WHO'S IDEA

*Participants of September, 2009  
Centre for Natural Hazards Research workshop  
see [www.sfu.ca/cnhr/workshops](http://www.sfu.ca/cnhr/workshops)*

# Land-use Decision Support: Reducing Risk from Hazards

## Workshop

September 17, 2010  
Simon Fraser University  
Harbour Centre Campus  
8:30 am - 5:00 pm

### REGISTRATION

Contact [bert.struik@nrcan.gc.ca](mailto:bert.struik@nrcan.gc.ca)  
Before July 30, 2010 to reserve  
one of the limited spaces  
All we ask is your commitment  
Free registration includes:  
continental breakfast  
refreshments  
sandwich lunch

Further information at:  
<http://www.sfu.ca/cnhr/workshops>

### OUR COMMITMENT

Workshop products will be promoted with agencies and institutions that mitigate risk from hazards. We will bring the products to communities to discuss how to improve practice and application of the guide.

Further information available at the workshop website:  
<http://www.sfu.ca/cnhr/workshops>

### CONNECTIONS

This workshop builds on the CNHR workshop on risk mitigation systems held in Vancouver, BC, September, 2009. Participants of that workshop recognized and suggested that land-use decisions are key to developing disaster resilient communities and better decision support could reduce disasters ([www.sfu.ca/cnhr/workshops](http://www.sfu.ca/cnhr/workshops)). Contributions to building better are an anticipated outcome of this workshop.
