### CONNECTIONS

This workshop builds on the CNHR workshop on land-use decision support held in Vancouver in September 2010. Participants of the 2010 workshop and subsequent conferences formulated content for a land-use guide aimed at building disaster resilience ([www.sfu.ca/cnhr/workshops](http://www.sfu.ca/cnhr/workshops)). A draft land-use guide will be critiqued, improved and validated at this workshop.
